

PharmaWaste

A Singular Solution for Creditable and Non-Creditable Pharmaceuticals

Improperly disposing of pharmaceutical waste can cost your pharmacy tens of thousands of dollars per day in fines. Not to mention you run the risk of being shutdown. The Pharma Logistics' PharmaWaste program offers a simple way to properly dispose of your pharmaceutical waste. By adding it to your Pharma Logistics' pharmaceutical reverse distribution services you have a singular solution for all your creditable and non-creditable pharmaceutical products.

This eco-friendly waste-disposal solution is available for current or new Pharma Logistics Reverse Distribution customers using our Onsite and Box & Ship services.

Acceptable Non-Hazardous Pharmaceutical Disposal Product

Repacked Medications

Compounded Pharmaceuticals

Loose Pills

IV Solution Bags

Non-Acceptable Waste

Chemicals and Industrial Materials

Controlled Medication

Hazardous Waste

Radioactive Materials

Sharps

Biohazardous/ Medical Waste

By letting Pharma Logistics handle both your pharmaceutical returns and your pharmaceutical waste disposal you can:

- Allow staff to focus on patient care and save on the additional labor costs
- Ensure compliance with state, local and federal regulations for returns and disposal
- Avoid fines and serious repercussions for improper handling
- Save time and resources with a streamlined solution
- Reduce risk of harm to people, animals and the environment
