

Pharma Logistics' Partnership with ConsortiEX is Your DSCSA Solution: Comply with Confidence

Increase Cash Flow and Process Efficiencies

As market leaders in serving the needs of hospital pharmacies, the strategic partnership between ConsortiEX and Pharma Logistics means easier, more seamless access to supply chain and pharmacy services for your hospital pharmacy. With combined expertise in compliance, cash flow and pharmacy efficiency, we can help your hospital pharmacy:

**Maintain
compliance**

**Improve
inventory
efficiency**

**Improve
patient
safety**

**Reduce
costs**

**Manage
cash flow**

Plus, you can easily apply funds generated by your Pharma Logistics reverse distribution services to pay for your crucial compliance services from ConsortiEX.

Benefits to Your Hospital Pharmacy Include

- Proven track record of exceptional customer satisfaction and retention.
- Reverse distribution services that accelerate the return of credits generated and minimize the labor costs required to manage the entire returns processes for hospital pharmacies.
- DSCSA Compliance services that deliver the lowest real cost of compliance by taking responsibility for the bulk of the work required to be compliant.
- Assure-Trak® Compounding Management System empowers your pharmacy with an automated, standardized workflow, focusing on patient safety, operation efficiency and regulatory compliance.
- Cost-efficient and effective detection of suspect drugs to ensure these do not reach patients — the central goal of the Drug Supply Chain Security Act of 2013.
- Assurance that your compliance demands for returning saleable, unsaleable and recalled drugs are met.

How to Get Started with Pharma Logistics and ConsortiEX.
