

VA Drug Disposal Program

Properly Dispose of Pharmaceutical and Resource Conservation and Recovery Act (RCRA) Waste

VHA Directive 1108.07 requires VA facilities to separate hazardous and non-hazardous waste. The process is time consuming and difficult to manage, often leading to healthcare staff ignoring this required practice and subjecting VA medical centers to fines and penalties.

Pharma Logistics has a better way!

Did You Know? The Environmental Protection Agency (EPA) is regularly investigating breaches of the Resource Conservation and Recovery Act (RCRA) governing the disposal of hazardous waste. Infringements can result in corporate fines of up to \$37,500 for each violation per day, as well as personal fines and/or imprisonment for any and all involved employees up to the CEO.

Making Waste Segregation Easy and Compliant

Steps For Compliance

Ensure your pharmaceuticals are disposed of correctly, efficiently, and cost-effectively.

Support At Every Step

We work with you to review, analyze, and streamline your pharmaceutical waste, and provide you with a powerful, yet simple to use waste classification program.

Dispose Smarter

Help you determine your hazardous (RCRA) and non-hazardous pharmaceutical waste container requirements, and the most cost-effective and compliant system of disposal.

This cost-effective, customized pick-up and disposal service will take the guesswork and compliance risk out of your pharmaceutical waste segregation.

How Does the VA Drug Disposal Program Benefit You?

- Ensure compliance with VHA Directive 1108.07, PBM Guidance, and OIG Recommendations
- Avoid fines and repercussions for improper waste handling
- Reduce risk of harm to people, animals and the environment

We work with GEMS coordinators and pharmacy personnel to implement a solution that reduces labor burden on VA staff and ensures compliance.

Acceptable VA Drug Disposal Product

Expired Medications

Compounded Pharmaceuticals

Loose Pills

IV Solution Bags

When it comes to compliance, trust the pharmaceutical waste disposal experts.
